Boost Mitochondria*
with NT Factor®
Researched Membrane Phospholipids

NT Factor® EnergyLipids

Pure Membrane Phospholipids - NO sugar, stimulants or herbs

A single dose of NT Factor phospholipids given to 29 fatigued adults reduced overall fatigue by 39.6% within 3 hours – most within 1 hour.* All subcategories of fatigue showed significant reductions, including improved energy, activity, cognitive function, mental clarity, and focus.*[1]

In a rodent study, NT Factor phospholipids helped prevent hearing loss associated with aging.* They increased mitochondrial function by 34%, and prevented aging-related mitochondrial DNA deletions.* [2]

NT Factor® Healthy Curb®

Phospholipid Membrane Food* & White Kidney Bean

30 subjects took Healthy Curb® for 2 months, 2 pills before each meal. They lost on average 3 pounds, reducing waist circumference 1.5 inch and hip circumference 1 inch.* 63% of the subjects lost on average 6 pounds, with 2.5 inch reduction in waist and 1.5 inch in hip.* Weight, body mass index, and basal metabolic rate reduced gradually and consistently.* Overall hunger reduced 44%, with less cravings for sweets, and 23% less fatigue.* There was no increase in appetite, and no changes to diet or exercise.*[3]

NT Factor® Advanced Physicians Formula

Proprietary Membrane Phospholipids B Vitamins Plus

67 moderately fatigued subjects taking 5 tablets per day of Advanced Physicians Formula for one week showed a 36.8% reduction in fatigue.* Subcategories of overall fatigue, behavior/severity, affective meaning, sensory, and cognitive/mood all showed reductions of 34.6% to 40.6%.*[4]

NT Factor® – Scientifically selected blend of phosphatidylcholine, glycolipids, and other phosphatidyl nutrients – The perfect mitochondrial food!*
