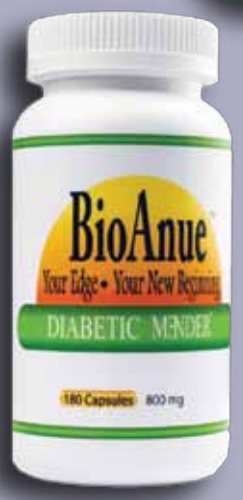
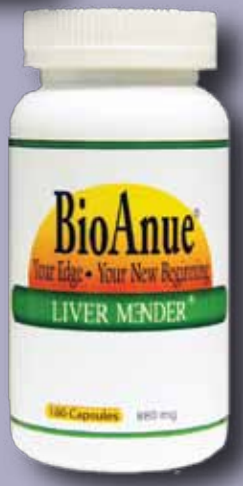
DIABETIC MENDER®



Most type 2 Diabetics are enzyme and mineral deficient.
These deficiencies cannot be controlled by insulin alone. Natural occurring enzymes found in the human body (Amylase, Lipase, and Protease) have a direct correlation of concentration and health. Essential minerals in the body such as Copper, Vanadium, and Zinc are found naturally in foods, but when food is over processed these minerals are lost. Enzymes need these minerals to work inside the human body. Copper depletion leads to abnormalities in metabolism of fats, high triglycerides, non-alcoholic steatohepatitis (NASH), fatty liver disease and improper intake of vanadium into the cells. Vanadium improves glucose control by opening the receptors of the cells in people. Zinc is recycled through the pancreas, which secretes zinc-containing enzymes into the intestines at mealtimes; zinc is a cofactor for over 100 enzyme functions.
Diabetic Mender is a proprietary blend of Copper Gluconate, Pancreatic Extract, Vanadium Citrate, Zinc Ascorbate, and Zinc Gluconate.

LIVER MENDER®

- **Helps repair the liver**
- **Lowers cholesterol**
- **Reduces hepatic fibrosis**
- **Prevents further damage**
- **Improves liver function**
- **Helps protect the liver on a cellular level**
- **Dramatic improvement seen in Hepatitis B cases**



Liver Mender is comprised of Agaricus blazei extract, Cordyceps extract, L-Glutathione, Reishi extract, Shiitake extract, and Thymus extract. This synergetic blend of nutrients will stimulate the immune system, detoxify the liver, and support the health function of other vital organs that are critical for a healthy life.
The maintenance of a health liver is vital to overall health and well-being. This vital organ is often abused by environmental toxins, chemicals, poor eating habits, alcohol consumption, chronic drug use, and autoimmune diseases.

BioAnue Supplements are all Natural.
This product is pure nutrition;
no excipients, fillers, additives,
or synthetic chemicals.

PRIVATE LABEL AVAILABLE

We provide full support for customers.
