

A NEW LINE OF CLINICALLY PROVEN PROBIOTICS

Essential-Biotic™ WOMEN'S Ten Human Probiotic Strains Including *L. crispatus*

Supports a healthy balance of flora in the genitourinary tract, and reduces fecal beta-glucuronidase levels and activity, supporting healthy estrogen metabolism.* May also inhibit the growth and adhesion of pathogens on the vaginal and urethral mucosa.*

Essential-Biotic™ COMPLETE High Potency Broad-Spectrum Probiotic

Provides 50 billion CFUs of twelve human probiotic strains to support both upper and lower GI health.* Helps normalize bowel habits and stool consistency, reduces the discomfort associated with lactose intolerance, and GI disturbance associated with travel.*

Essential-Biotic™ MATURE Six Human Probiotic Strains for Adults 50+

Supports senior gastrointestinal and immune health, upper and lower GI health, and helps normalize bowel habits and stool consistency.* Also shown to reduce the discomfort associated with lactose intolerance.*

Stable at room temperature
