

Neo40[®] Professional

Support for healthy heart and circulatory function.

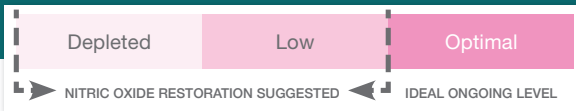

Neo40[®] Professional Daily heart and circulation formula.

Nitric Oxide (NO) is one of the most potent endogenous vasodilators, playing important roles in modulating blood flow and blood pressure function. Neo40[®] Professional is a highly synergistic combination of nutrients to support increased production of NO including an active form of vitamin B₁₂ (as methylcobalamin), active folate (as 5-MTHF), and the proprietary nitric oxide blend.

Nitric Oxide Salivary Indicator Strips Easily measures nitric oxide availability.

Neogenis[®] Indicator Strips are the first and only instant-read saliva indicator for measuring NO levels. The indicator helps monitor the body's nitric oxide status. The results are measured by comparing the indicator strip to a color-coded chart.
