

# Promote Healthy Immune Balance\*

Recent research has revealed the importance of immune modulation in promoting a healthy immune response.

A healthy immune system is like a well choreographed dance routine, requiring all T helper cell subsets to perform optimally.

Transfer Factor Multi-Immune™, a focus of multiple research studies, was formulated to promote the body's healthy immune response. Our product formulation team combed the research for well-designed ingredient studies, selecting thirteen specialized nutrients to provide a synergistic immune support blend.

#### EACH SERVING CONTAINS:

- **NK Maximizer BioPlex™** - Super blend of colostrum, transfer factor, larch arabinogalactan, IP-6, shiitake & maitake mushrooms
- **Macrophage & T-Cell Pro Blend™** - TMG, beta glucan, astragalus
- **Health Cell GTP™** - Green tea & pomegranate extracts
- **Mineral Blend** - Zinc & selenium
